SOFTWARE ENGINEER

🕐 PROFILE INFO

Hi there, I'm a Software Engineer living in Kathmandu, Nepal. I make Web Applications usually, with the Javascript framework. I prefer to keep learning, continue challenging myself, and do interesting things that matter. I am a strong believer that learning never ends.

💼 WORK EXPERIENCE

WEBPOINT SOLUTIONS, LLC
SOFTWARE ENGINEER / **MAR 2021 - PRESENT**

- Analysis, design, development, deployment, and maintenance of small-scale projects independently.
- Write modular, reusable, and excellent quality code, code reviews, and implement best practices.
- Continuous research and learning; discover, evaluate and implement new technologies to maximize development efficiency.
- Create a cyber security website for vulnerability scans.

YOTCHA SERVICES PVT LTD
ASSOCIATE FULL-STACK ENGINEER / **MAY 2020 - APR 2021**

- Develop and Implement highly responsive user interface components using React concepts.
- Develop an e-commerce site from scratch using React and Django.
